

Time AM to PM	Tasks	Description
8.00 AM	Take turkey out of the fridge	Ensure turkey is on a suitable and large enough ovenproof tray
9.15 AM	Put oven on	At required temperature i.e. 190C/170C Fan/ Gas 5 etc.
09.20 AM	Get Christmas pudding out of fridge	Set up steamer or prep for how it needs to be heated
10.00 AM	Put turkey in oven	
1.30 PM	Get Veg out of fridge	Allow to warm before cooking
1.45PM	Put tray with oil in for roast potatoes	Pre-heat the oil in the roasting pan before adding the potatoes.
1.50 PM	Put prepared potatoes on heated tray and back in oven	
2.00pm	Get vegetable ready to go on	Fill saucepans with just enough water and bring to the boil. Remember to save the water for the gravy (if you are making it fresh).
2.30pm	Turkey should be ready	Check for clear juices by pushing skewer into the meatiest part of the joint or use a cooking temperature gauge to check it is over 74C.
2.35pm	Put the Christmas pudding on if it requires an hour to heat	Stand in a saucepan with enough water to reach half way up the side of the bowl.
2.40pm	Make gravy if you have not prepared it	If pre-prepared ensure you get it out of fridge earlier
3.00pm	Serve the Turkey, etc.	Eat

Whatever you decide to prepare for Christmas change the timings and temperatures according to have chosen. This is just an example and hopefully will help you with your planning for Christmas according to your needs

Comments
Have plenty of the extra wide foil available to cover the turkey, if required.
Check temperature required beforehand
Enjoy the rest of the morning!
If you have frozen the vegetables as part of the pre-cooking stage then get out of freezer the day before.
If you are using a steamer then stack and ensure water in the base. Otherwise ensure you have enough saucepans for the veg.
Leave to rest well wrapped in foil, you can also cover with clean towels to keep the heat in.
Use a small flan ring as the stand in the saucepan to avoid the bowl touching the base of the pan.
Enjoy!
